DETAILED ACTION

Reasons For Allowance

1. An amendment was received from the applicant on 6/22/2007.
2. Claims 1-36 are cancelled.
3. Claims 37-75 are new.
4. Claims 35-75 are allowed.
5. The following is an examiner's statement of reasons for allowance: The watercraft as claimed by applicant is not shown or suggested in the prior art. Specifically, the prior art does not disclose a water craft including a chassis portion, at least four water engaging and interconnection means, with each water engaging means connected to the chassis portion and moveable in a substantially vertical direction relative to the chassis portion, the interconnection means including a plurality of rams and fluid conduits, with each ram disposed between the water engaging means and the chassis portion, and each ram fluidly connected to at least one other ram and associated with at least one other water engaging means using at least one fluid conduit; and the interconnection means arranged to functionally link the four water engaging means such that simultaneous movement of all water engaging means is permitted when adjacent water engaging means move in opposite substantially vertical directions, and such that when two adjacent water engaging means are urged during use to move in the same substantially vertical direction relative to the chassis portion, an opposite two adjacent water engaging means are restricted from moving in a substantially opposite vertical direction relative to the chassis portion, and the chassis

portion is thereby encouraged to maintain an orientation which is substantially constant relative to the average plane of the water surface.

Conclusion

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Allowance."
